IMI Powers the First Integrated EV Charging and Transport System For the Ayala Group

December 21, 2021. Laguna, Philippines. — The first ever integrated electric vehicle (EV) charging and transport system for the Ayala group was recently installed at Ayala 30th Mall last December 17.

A first for the conglomerate and in support of its commitment to achieve net-zero greenhouse gas emissions by 2050, Integrated Micro-Electronics Inc. (IMI) takes the lead in bringing the EV chargers of TGOOD LINCHR, the world's largest EV charging infrastructure provider, into the country.

IMI China builds the electronics and assembles the power supply system in the EV chargers of TGOOD LINCHR, one of the company's valued partners in the new energy market.

"We have been part of this ecosystem on a global basis; and now that we are contributing locally, we are all the more proud to be deeply involved this major disruption here in our country," said Arthur R. Tan, chief executive officer of IMI. "We hope to be a catalyst for technology that drives carbon neutrality," Tan added.

The newly installed charging station is a collaboration between IMI, Ayala Land, TGOOD, GREENSTRUM and Global Electric Transport (GET).

About IMI

Integrated Micro-Electronics, Inc. (IMI), the manufacturing arm of AC Industrial Technology Holdings, Inc., a wholly-owned subsidiary of Ayala Corporation, is among the leading global technology and manufacturing solutions expert in the world. IMI ranks 21st in the list of top EMS providers in the world by the Manufacturing Market Insider based on 2020 revenues. In the automotive market, it remains the 6th largest EMS provider in the world per New Venture Research.

IMI specializes in highly reliable and quality electronics for long product life cycle segments such as automotive, industrial electronics and more recently, the aerospace market.

From its 21 manufacturing plants across ten different countries, IMI provides engineering, manufacturing, and support and fulfillment capabilities to diverse industries globally.

The financial information included herein for Via optronics and STI Ltd. may change; however, IMI does not expect any such changes to be material, in the aggregate, to IMI.
