Please refer to the attached press release. Thank you!

Very truly yours,

JAIME G. SANCHEZ

Vice President, Deputy CFO and Group Controller
Compliance Officer

Delayed Resumption of Work in the People's Republic of China Due to n-CoV Outbreak

January 30, 2020, Laguna, Philippines — Integrated Micro-Electronics, Inc. (IMI) announced that the company has delayed resumption of work in selected China manufacturing facilities in conformance with local government notices regarding the outbreak of the Novel Coronavirus (n-CoV).

The provincial government units concerned, in accordance with the Emergency Response Law and Infectious Disease Prevention and Control Law of the People's Republic of China, extended the holidays to ensure the implementation of measures and response requirements and further strengthen the control of the n-CoV.

The manufacturing sites affected by these advisories are as follows:

IMI Site	Location	Province	Earliest Resumption Date
IMI Technology (Shenzhen) Co. Ltd.	Pingshan Kuichong	Guangdong	February 10, 2020
Speedy-Tech Electronics (Jiaxing) Co. Ltd.	Jiaxing	Zhejiang	February 10, 2020
IMI (Chengdu) Ltd.	Chengdu	Sichuan	February 10, 2020
VIA Optronics (Suzhou) Co. Ltd	Suzhou	Jiangsu	February 9, 2020

Along with the customers, IMI is developing contingency plans to recover production backlogs as a result of these suspensions including among others, the temporary transfer of production activities for some customers to other IMI manufacturing plants. Management is communicating with local government offices regarding the possibility of resuming production earlier than the mandated dates at reduced production capacity.

The company is implementing guidelines to address and manage employees who manifest symptoms associated with the coronavirus. Business trips to and from high risk regions have been deferred. IMI remains vigilant and will ensure that all employees have a healthy and safe work environment.

IMI is currently assessing the extent of the impact of such outbreak on its operational and financial performance.

About IMI

Integrated Micro-Electronics Inc. (IMI), the manufacturing arm of AC Industrial Technology Holdings, Inc., a wholly-owned subsidiary of Ayala Corporation, is among the leading global manufacturing solutions expert in the world. IMI now ranks 17th in the list of top 50 EMS providers in the world by the Manufacturing Market Insider (March 2019 edition), based on 2018 revenues. In the automotive market, it is the 5th largest EMS provider in the world per New Venture Research.

IMI specializes in highly reliable and quality electronics for long product life cycle segments such as automotive, industrial electronics and more recently, the aerospace market.

From its 21 manufacturing plants across ten different countries, IMI provides engineering, manufacturing, and support and fulfillment capabilities to diverse industries globally.
